## BUILDING OPERATIONS IN PENNSYLVANIA MUNICIPALITIES

### Annual Report 1957

Local government officials in 633 Pennsylvania permit-issuing municipalities reported the authorization of 91,826 new construction projects with an aggregate dollar value estimated at time of completion of \$775,399,572 for the year 1957. This was somewhat lower than the 97,955 permits with an aggregate valuation estimated at \$783,961,465 issued and reported by 618 communities for the year previous. The 6.3 per cent drop in permits issued in 1957 compared to 1956 was essentially a reflection of reduced construction activity in the New Residential Building category from 31,317 permits issued in the earlier year to 26,299 permits granted during 1957. Expressed as a per cent of total building activity this category's decline was from 32 per cent in 1956 to 28.6 per cent in the year following. Additional reductions in construction activity were also evident in the New Non-Residential Building category (from 10,287 in 1956 to 9,392 in 1957) and the Installations category (from 7,377 in 1956 to 6,835 in 1957). A slight increase was recorded by the Additions, Alterations and Repairs category from 48,974 permits issued in 1956 to 49,300 granted during the subsequent year. When the year to year changes are expressed in dollar terms reductions in total volume were registered by the same three categories indicated above. However, expressed in these same dollar terms the New Non-Residential Building category experienced the greatest decline from \$293,712,710 in 1956 to \$283,493,726 in 1957.

#### NEW RESIDENTIAL BUILDING SHOWS SLIGHT DOLLAR DECLINE

The 1956 decline in residential building from the 1955 peak was continued into 1957. Although there were 15 more reporting places in 1957 than in 1956 the total number of permits issued in the later year declined by 5,018, or 16 per cent. However, the aggregate dollar value of these authorizations declined but \$6,241,929 or 1.7 per cent. A sizeable increase in the value of authorized construction of large apartments (to accommodate five or more families) from \$2,523,000 in 1956 to \$20,788,430 in 1957 helped to keep 1957 residential construction at near the 1956 level. New Residential Building also benefitted from an increase in the value of planned new Hotel Construction from \$242,000 to \$10,826,890 comparing 1956 with 1957. Of interest is the fact that although compared to 1956 there were 4,993 fewer permits issued in 1957 to authorize the building of One-Family Housekeeping Dwellings, the average dollar value of these permits increased from \$11,863 in the earlier year to \$12,784 in the year under consideration.

#### NEW NON-RESIDENTIAL BUILDING LOWER THAN 1956

Although the total dollar value of New Non-Residential Building authorized was \$10,218,994 lower in 1957 than in 1956 (from \$293,712,710 to \$283,493,726) this category still accounted for 36.5 per cent (compared to 37.5 in 1956) of the total dollar value of all construction authorized during 1957. In contrast to the dollar decline in the total authorization, a significant increase was registered in the estimated building value of Institutions (from \$19,033,546 to \$27,054,654), Office Buildings (from \$28,680,466 to \$33,199,979), Public Buildings (from \$3,751,739 to \$6,666,510), and Schools (from \$74,658,278 to \$77,164,429). However, the advances were exceeded by total dollar value declines in the authorized building of Stores & Mercantile Buildings (from \$50,669,785 to \$42,256,623), Public Works & Utilities (from \$25,714,435 to \$19,985,785), Factories (from \$36,444,663 to \$31,129,363), Amusement-Recreation Places (from \$7,248,734 to \$5,172,038), Churches (from \$21,635,851 to \$19,736,035), Gasoline and Service Stations (from \$6,708,270 to \$6,333,690), Public Garages (from \$5,903,165 to \$5,105,279), Private Garages (\$6,998,548 to \$6,470,713), and the All Other category (from \$6,265,230 to \$2,418,628).

#### IMPROVEMENTS INCREASE--INSTALLATIONS DECLINE

In 1957 the total dollar value of permits issued to authorize Additions, Alterations and Repairs rose 11.6 per cent (from \$96,067,572 in 1956 to \$111,583,101 in 1957) compared to a year earlier. This increase is particularly interesting when viewed in the light of the decreased building of new One-Family Dwellings.

Permits issued to authorize Installations (boilers, waterworks, awnings, signs, elevators, motors, gas engines, etc.) were 542 fewer in 1957 (6835) than in 1956 (7377). The average dollar value of each permit also decreased from \$2284 in the earlier year to \$1351 in 1957.

## METROPOLITAN AREAS

Among the sixteen (16) metropolitan areas listed the number of areas showing an increased amount of construction in 1957 equalled the number of areas showing a falling off in construction between 1956 and 1957. The range of those showing increases between the two years extended from a plus 7.4 per cent in Pittsburgh to a plus 49.1 per cent in the Scranton area. Among the areas showing declines the range spread from a minus 4.3 per cent in Philadelphia to a minus 55.7 per cent for the Sunbury-Shamokin area.

## EXPLANATORY NOTE

Data used in this report is based upon mail questionnaires sent to permit-issuing communities throughout the Commonwealth of Pennsylvania. During 1957, this bureau was fortunate in getting 633 reporting units to cooperate in this voluntary project. It is estimated that taken altogether, the municipalities shown in this report accounted for about 70 per cent of the combined urban and rural population of the Commonwealth and approximately 95 per cent of the urban population of the State.

## DEFINITION OF URBAN POPULATION

The definition of urban population which is employed in this report is based upon that used in the 1950 Census. According to that source, urban population comprises all persons living in:

- (a) Places of 2,500 inhabitants or more incorporated as cities, boroughs and villages,
- (b) Incorporated towns of 2,500 inhabitants or more,
- (c) The densely settled urban fringe, including both incorporated and unincorporated areas, around cities of 50,000 or more, and
- (d) Unincorporated places of 2,500 inhabitants or more outside any urban fringe. The remaining population is classified as rural.

## VALUATION OF BUILDING OPERATIONS IN METROPOLITAN LOCATIONS - 1957

| METROPOLITAN<br>AREA                  | TOTAL         | RESIDENTIAL   | NON-<br>RESIDENTIAL | IMPROVEMENTS<br>AND<br>INSTALLATIONS |
|---------------------------------------|---------------|---------------|---------------------|--------------------------------------|
| Philadelphia (1)                      | \$352,110,469 | \$170,038,604 | \$115,576,854       | \$66,495,011                         |
| Pittsburgh (2)                        | 214,608,165   | 116,919,012   | 71,926,534          | 25,762,619                           |
